

MULTIVISTA WEBCAM

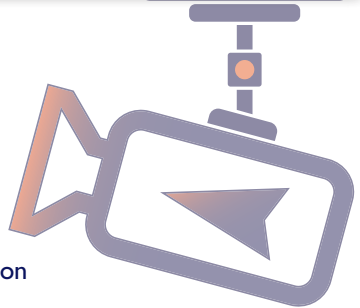

MULTIVISTA WEBCAM allows users anytime access to live conditions of their construction site.

MULTIVISTA WEBCAM is perfect for broad site overviews of current conditions and construction activity. The **MULTIVISTA WEBCAM** feed of your project will be accessible directly from within the Multivista Documentation System – right along side the rest of your comprehensive documentation.

Multivista Webcam

- Real-time Streaming Video Feed
- Broad Overview of Site Conditions
- Archived Images
- Time-lapsed Video
- Anytime Access to Live Site Activity
- A Dispute Resolution Resource
- Verify Material Delivery
- Remotely Monitor Construction Progress
- Accessible Online with Your Other Documentation

MULTIVISTA WEBCAM coverage can vary from a single specific point of interest to a complete 360-degree perspective of the entire site from within the Multivista Documentation System – accessible from anywhere, at anytime!
