

MULTIVISTA VIDEO SERVICES: FACILITIES OPERATIONS & MAINTENANCE

RECORD NOW AND SAVE FOR THE LIFE CYCLE

Multivista Video is a high-definition solution for facility maintenance teams. These professionally produced instructional videos allow clients to:

- Provide instruction for proper equipment operation, inspections, and maintenance
- Administer recurring operations and safety training sessions
- Troubleshoot, perform fault analysis, and repair equipment systems
- Prevent costly knowledge loss from departing employees
- Supplement complex technical manuals
- Reduce life cycle expenses through maintenance efficiencies

The screenshot displays the Multivista web application interface. At the top, there is a navigation bar with tabs for HOME, PHOTOS, FLOORPLANS, FILES, VIDEOS, and PEOPLE. The 'VIDEOS' tab is active. On the left, a sidebar lists categories: All Categories, General, Fire Suppression Systems, Building Controls, Information Technology, and Gas and Fluid Control. The main content area shows a video player for 'Sprinkler Riser' by Patrick Miroka. The video player includes a play button, a progress bar, and resolution options (1080p, 720p, 480p, 360p, 240p). A hand cursor is pointing at the 'VIDEOS' tab. In the bottom left corner, there is an inset image of a camera monitor displaying a video of two workers in safety gear.

VIDEO

Accessible from anywhere, training videos are securely hosted alongside your facility's photographic documentation, architectural plans, and equipment manuals.

“...Multivista is a crucial service that is useful throughout a facility's life.”

MARC BRUNNER

Architect, Director, University Design & Construction, **Austin Peay State University**

CONSTRUCTION MILESTONES

PERMANENT RECORD, PERMANENT RESOURCE

Multivista Video provides an indisputable visual recording of construction milestones and finished conditions. High-definition, professionally edited videos allow Multivista clients to:

- Reduce liability or validate insurance claims
- Maintain a comprehensive record of as-built conditions
- Capture building walkthroughs
- Certify complex equipment installations
- Confirm workmanship and construction materials

The screenshot displays the Multivista web application interface. At the top, there is a navigation bar with tabs for HOME, PHOTOS, FLOORPLANS, FILES, VIDEOS, and PEOPLE. The 'VIDEOS' tab is selected. Below the navigation bar, there is a sidebar with a list of categories including General, Fire Suppression Systems, Building Controls, Information Technology, and Gas and Fluid Control. The main content area shows a video player for a video titled 'Switch Overs Walk Through'. The video player includes a play button, a progress bar, and resolution options (1080p, 720p, 480p, 360p, 240p). The video title 'Switch Overs Walk Through' is displayed at the bottom of the player. The video content shows a person in a black jacket standing in a laboratory setting, surrounded by various pieces of equipment and pipes.

Documentation videos are securely hosted on Multivista's cloud-based platform and delivered to the client for permanent archiving.

“ We now have solid proof of existing buildings and assets for maximum (insurance) recovery. ”

SANDY HULL
